32	Fall River,* Village of	Columbia	4804-02	\$ 848,320	\$ -		No	Water main upgrade	

\$ 62,352,846 Total SDWLP \$ Requested

*The SDWLP must allocate 15% of the available funds in each fiscal year to public water systems that regularly serve fewer than 10,000 persons. Municipalities that are marked with an asterisk meet this criterion.

**Section 281.61(8)(a)2, Wis. Stats., limits the amount of present value subsidy (PV) any local unit of government can receive from the safe drinking water loan program in a biennium to 25% of the PV approved by the legislature. Neenah and Racine are each limited to a loan amount of \$16,666,667 as this is the maximum loan the SDWLP can provide under the 25% PV limit in the 2003-05 biennium.

Notes: Projects that have a "Yes" in the Elig. for 33% of Market Interest Rate column are projects of municipalities with a population less than 10,000 and a median household income (MHI) that is 80% or less of the state's MHI.
